c. Overall Evaluation

- i. We have proceeded forward with our plan even though we have not received comments about our 2017 action(s).
 - ii. We accomplished many task is 2017 - 2018 and will continue to follow the steps of our Plan.
 - iii. See the attached sheet for the 2017-2018 accomplishments. We seem to be well on schedule.
 - iv. Our Zoning Ordinance and the establishment of our Erosion and Sediment Control Ordinance have had a major impact on the control of erosion in the Town.
 - v. None
 - vi. No Monitoring required
- d. Narrative
- i. We only have the Town Hall Facility. The new building is complete and has improved the overall land use and insures better “house keeping” in the future.
- e. Summary – See attached sheet for planned goal in third year.
- f. Results – the implementation of our EC Ordinance has gone a long way to improved water quality in the Town. Contractors are **WELL** aware of our requirements. They, for the most part, have been in full support of our efforts.
- g. Notice – we are relying on Shelby County to assist us with routine inspections as part of the general construction permitting process. This has been a long standing relationship and works very well.
- h. Monitoring – NONE REQUIRED
